

Bradenton Road Project Update for the week of November 7, 2014

The Myrtle St. approaches to Old Bradenton Road will be closed to traffic on Monday, December 1, 2014. This will allow the contractor to build concrete roadway approaches on both sides of the intersection, much like the 47th St. construction that is just finishing up on the West side of OBR.

Motorists will not be allowed to make turning movements at the intersection, however **the North and Southbound thru traffic on Old Bradenton Road will be allowed** during the closure.

The attachments show the area where the work will be occurring and the detour that will be implemented for the period.

[Myrtle St. MOT](#)

The closure will start next Monday and will reopen on or before Monday, December 29th.

Variable message boards will be in place this week notifying motorists of the upcoming closure and detour signs will be in place for the duration of the work.

Have a safe and enjoyable holiday.

For more information and to keep current with the project visit the [Old Bradenton Road Construction Project](#) webpage.
